

Techno Analisis joins the Tentamus Group in Italy

The **Tentamus Group** announces the entry of **Techno Analisis** into its network of specialized companies and laboratories in Italy, effective **January 1, 2026**. This transaction is part of the Group's growth strategy aimed at strengthening its presence in the Italian market and further expanding its portfolio of high value-added services.

Techno Analisis is a laboratory with significant **accreditation in the biomedical field** and solid expertise also in the **environmental and occupational health and safety** sectors. Its integration into the Tentamus Group enables the inclusion of highly specialized know-how within an international network, while maintaining a strong local presence.

The company's headquarters in **San Felice sul Panaro**, located in the heart of Italy's **Medical Valley**, represent a strategic asset for the development of the Group's activities in an area characterized by a high concentration of excellence in the medical and biomedical sectors. This integration will allow Tentamus to offer clients **more comprehensive, high-quality and integrated services**, effectively responding to the needs of an ever-evolving market.

Chiara Pellegatti, shareholder and Managing Director of Techno Analisis, comments:

"We chose to join the Tentamus Group because we fully share its philosophy: a global vision combined with a strong local presence. This integration allows us to continue operating with the approach, flexibility and attention typical of a small organization, while at the same time relying on a structured network of expertise and know-how for the benefit of our clients."

Nicola Berruti, CEO of Tentamus Italia & UK, adds:

"The entry of Techno Analisis further strengthens Tentamus' positioning in Italy, particularly in a strategic area such as the Medical Valley. The laboratory's expertise in the biomedical, environmental and HSE fields enables us to expand our service portfolio and support our clients with integrated, reliable and quality-oriented solutions."

The current management of Techno Analisis will continue to lead the company, ensuring **operational continuity** and leveraging synergies with the other entities of the **Tentamus Group**, in line with the highest technical and quality standards.
